Black friday deals 2019 apple watch with cellular

Apple Watch Photo by Amelia Holowaty Krales/ The Verge If you've been waiting to upgrade your Apple Watch or are a first time buyer, Black Friday 2019 has been ripe with big deals on apple's range of smartwatches. Eagle-eyed shoppers might have quickly swept Walmart's doorbuster sale, which had an Apple Watch Series of \$3 to \$129 – its lowest price of a cool \$70 – which we featured in our larger guide to Apple's Black Friday offerings. But there are still some storage opportunities, whether you're interested in Apple's more affordable 3 Series watch or the more capable 5 series. Where you can still buy discounted Apple Watch Series 3 Walmart sold through its inventory of 38mm Apple and 42mm Series 3 watches with GPS capabilities that were sold earlier today for \$129 and \$149 respectively. As for what else Walmart has in stock, you can buy a series of 3 38mm watches with GPS and mobile capabilities for \$229. Target has limited stock of 38mm Series 3 watches with GPS, but not at Walmart's low prices. It's \$169, and is currently only available for pick-up in some stores. Still, it's \$30-\$60 cheaper than it sold last year on Black Friday. And if you are able to find this watch on target (or make any other purchase over \$50 today), you will get 20-percent off a coupon for you to use on a future purchase. If you're dead in season 3, target has no choice. Best Buy also offers a 38mm Series 3 watch, although its starting price is the highest at \$189. It currently does not offer a 42mm version of this model, and its prices for the GPS and mobile version of the watch are oddly in the range of \$500. &B&H Photo offers a Series 3 in a size of 38mm for \$189, like Best Buy. It is also selling a size of 42mm to \$219 (it's backordered, but B&H is still accepting orders). Nor are the best prices we've seen during Black Friday, but they're not that bad if you really wanted to pick this one today. Photo By Vjeran Pavic/The Verge Where You Can Still Find Discounted Apple Watch Series 5 While Walmart had the best deal on Series 3, the newer Series 5 was at its cheapest-ever price on Amazon and Costco. True, the discount wasn't more than \$30 off the usual sale price, but it brings it close enough to the price of Apple's Series 4 watch that it's easier to recommend tossing, if only for an always-on display that somehow doesn't have much of a negative impact on battery life. If you're looking for this watch, you won't have to jump around from seller-to-seller as much. Those deals started before Black Friday, and both retailers showed no signs of running out of stock. The GPS version of the 40mm 5 series smartwatch is up to \$354.99 (Amazon and Costco), which is \$24 off the usual price. The 44mm version of the Series 5 is \$384.99 (Amazon and Costco), which is also \$24 cheaper than usual. It is worth noting that for the Amazon deal, you will need to Series 5 watch to cart to see the discount reflected in the total. If you're shopping from Costco, you don't have to be a member, but you'll have to pay a five percent fee on departure. Other retailers like Best Buy and Target sell this model, but currently they are around \$40-50 more expensive than the ones listed above. Vox Media has a partnership. You may not be in the market for an Apple Watch for yourself, but the boy seems like a nice gift to give to someone you love. If you're going to take a smartwatch plunge, Black Friday is the time to do it – popular Apple devices come in several different variations and retailers are offering sales to get you into the (virtual) door. The headliner so far is Amazon slashing prices on the Apple Watch SE and Series 6 before Black Friday. But there are bound to be more deals-check back during November as we keep updating with more stores as they go live. Apple Watch Series 6 (GPS + Cellular, 40mm) - \$20 off on Amazon New Apple Watch Series 6 (GPS + Cellular, 40mm) - Silver aluminum case with white sports band - amazon.com 479.00Shop Now Series 6 varies in price between \$479 and \$748.89, depending on which loop you choose. Since it came out in September, it's the lowest price so far. Apple Watch SE Offers New Apple Watch SE (GPS + Cellular, 40mm) - \$50 off New Apple Watch SE (GPS + Cellular, 40mm) - Space Gray Aluminum Case with Black Sports Band - amazon.com 279.99Shop Now New Apple Watch SE (GPS, 40mm) Space Gray - \$50 off New Apple Watch SE (GPS, 40mm) - Space Gray Aluminum Case with Black Sport Band - amazon.com 229.99Shop Now That's price at \$269 , but you save an extra \$39.01 at checkout. Apple Watch Series 5 offers Apple Watch Series 5 are older, high-end Apple Watch. We haven't seen any Black Friday deals listed on it yet, but given it's older tech, it's likely to see prices slashed on Black Friday and Cyber Monday. Apple Watch Series 3 deals with the Apple Watch SE effectively replacing the 3 series as a low-end Apple Watch and it was one of the hottest items in the 2019 holiday season. But so far, no big deals talk about this older tech. Check out our Black Friday and Cyber Monday coverage to score great discounted gifts for everyone on the holiday shopping list. If you're looking for a new smartwatch, Black Friday is the time of year to get involved, for example, with your Apple Watch. Or maybe you want some new wireless in your ears - in Apple's AirPods range they are also convenient. Here are the latest offers you should know. The Apple Offers highlighted in this post have been independently selected by the contributor and do not contain affiliate links. I'm updating these stores so please check back. Apple Watch Series 5 in three different versions. David Apple Watch Since its launch in spring 2015, Apple's smartwatch has been ahead of its rivals quite consistently. The latest model, the Apple Watch Series 5, arrived in September this year and is the best yet, with a display that's always on, a compass and a new, pointed design first seen in fall 2018 when the Apple Watch Series 4 appeared. Since it's so new, series 5 is hard to find at reduced prices, although not impossible and further reductions are expected. Series 4 has been discontinued, and if the always-on display is what you want, it may be the best choice for bargain hunters. After all, it has the same chip as the 5 series and an almost identical design. Then there's series 3. First released in autumn 2017, it has a great design, just not as gorgeous as the models that followed. Apple recently lowered the price quite aggressively - it's now \$199 and up - but there are still even better deals to have. Apple watches come in two sizes. For series 3 it was 38 mm and 42 mm, and for series 4 and 5 there was a slight adjustment to sizes 40 mm and 44 mm. Choosing the size you prefer is your first task. Then, do you want a model with GPS and wi-fi connection only or GPS plus mobile so you can make phone calls directly from your wrist, for example, even if your phone is at home? Not every model has this option - Series 3 uses it, but it is now only available as wi-fi. Your third choice is the look of the watch. There are several metal finishes for housings: aluminum, stainless steel and only in series 5, titanium or ceramic finishes. Aluminum comes in several shades, as well as stainless steel and titanium. Oh, and one more thing, there are two special editions: the Nike+ Apple Watch, which is at the same price as the regular Apple Watch, and the Apple Watch Hermes, which is noticeably more expensive. Enough introduction. You can read my review of Apple Watch Series 5 here. Here's a lowdown on the best deals announced so far. Apple Watch Series 3 Apple Apple Watch on Amazon Series 5 Amazon has a 40mm GPS Series 5 for \$384 instead of \$399, saving \$15 or size 44mm for \$414 instead of \$429, also \$15 off. Buy 40mm here and 44mm here. Several color options. A slightly bigger discount, \$40 is found on the 40mm version with mobile, that's \$459, although it's back to a more modest \$15 reduction on the 44mm watch, that's \$514, both in aluminum. Buy 40mm here and 44mm here. If you want a stainless steel stainless steel watch with GPS + Cellular in Space Black – probably the most attractive surface ever – it has \$80 off in size 44mm only. Buy it here. Series 4 Amazon has bigger discounts on Apple Watch Series 4. For example, you can buy 44mm Space Gray aluminum with GPS for only \$329, that's \$100 from the previous price of \$429. Available here. Best of all? Series 4 GPS + Cellular with Space Black stainless-steel enclosure, reduced from \$749 to \$399, that's \$350 off! Buy it here. It is also available in a smaller size of 40mm for the same price, \$399, means it's \$300 from the previous price of \$699. You can buy it here. A series 3 snap at its full retail price, Amazon has another \$30 off, making \$169.99 for the 38mm case available here, although no reduction currently to the 44mm version (available for \$229, here). Things are the other way around when you add mobile. The 38mm version is at full price, \$299, but the larger 42mm model is actually cheaper thanks to the \$64.01 discount, which reduces the price from \$329 to \$264.99. Buy it here. [+] Published via Getty Images) Future Publishing Apple Watch on B&H Series 5 Like Amazon, there's a \$15 discount only on the aluminum GPS series 5. That's \$384 for 40mm - buy here - or \$414 for 44mm - available here. Check out sites for more colors and variations like Nike+. Same \$15 off on GPS+ mobile watch. That's \$484 for gold aluminum with pink sand sports bands, available here. However, if you like space gray aluminum discount is \$40, that is, it is on sale for \$459, available here. Add mobile and 44mm version in Space Gray costs \$514, discount, that's right , \$ 15. You can buy it here. The discount isn't much bigger on stainless steel, either. In Space Black, the 44mm version with GPS + Cellular is \$669 instead of \$699 - saving \$30. It's here. The same watch with milan's elegant loop band has a slightly better saving, \$50, which knocked the price down from \$799 to \$749. Available here, in ordinary stainless steel here or in gold stainless steel for the same price here. Smaller wrists may prefer the 40mm version, which in gold stainless steel with that eye-catching gold Milanese Loop is also \$50 off, at \$699, here. The same price applies to regular stainless steel colors in 40mm: \$699, available here. Series 4 Right now, discounts are relatively small, between \$10 and \$30, so not recommended. If you want to look at them, B &H series 4 page is here. Series 3 Series 3 models with GPS only are on sale at full price, but there are savings on series 3 with GPS + Cellular. Yet they tend to be really only around \$30 - in some cases the original list price was higher than the current prices, giving the impression of bigger discounts.
